

# Serpent<sup>®</sup> safety helmets

## Go Ahead and Stare... At the Future of Head Protection.

It's not Greek mythology. The sleek, attractive style of the **Serpent**<sup>®</sup> safety helmet will lure you in, but won't turn you into stone.

Once mesmerized by its spell, though, your employees will definitely want to try it on – and a rotating ratchet adjustment system helps keep the helmet securely in place. Then, workers will be compelled to keep **Serpent** on because of its many comfort features, including an eight-point, six-strap suspension, a soft cloth brow pad that absorbs moisture, and an ultra-light weight of just 13 ounces.

**Serpent** safety helmets are available in two versions: an unvented Class E version and a vented Class C option. **Serpent** protects against the most threatening of hazards, and has been independently tested to meet and exceed the ANSI Z89.1 standard to prove it.

It may not turn victims into stone, but **Serpent** will work powerfully to defend against head injuries. That's a promise.

## Serpent® Features

- Sleek, snake-head-like shell design provides attractive style while offering durable protection.
- High-density polyethylene is incredibly light – just 13.1oz.
- Eight-point, six-strap nylon suspension is comfortable and provides exceptional impact absorption.
- Soft, cushioned brow pad helps absorb moisture.
- A unique rotating ratchet suspension, which adjusts to fit head sizes from 6-5/8 – 8-1/4.
- Independently tested to meet the voluntary ANSI Z89.1-2009 standards for high visibility (hi-viz shell colors only), lower temperature, and reverse donning.

### Unvented Class E Serpent Helmet

- Provides exceptional electrical insulation for a wide range of environments.
- Independently tested to meet and exceed the ANSI Z89.1 Standard for Type 1 Helmets, Class E, G & C.
